Federal, state and local environmental regulations regarding the use of chemicals and generation of wastes (solvents, oils, caustics, lead, asbestos, etc.) and how they are stored, managed and disposed of, has resulted in an increase in cost of service. Ordinarily, increased costs simply result in an increased hourly labor ge. We at Automotive Service Solutions, LLC, have decided in liue of raising our labor rate, to list a compliance charge on appropriate service bills.

Automotive Service Solutions will provide a courtesy loaner vehicle for virtually any service visit. In an effort to offset fuel and maintenance costs, a \$10.00 fee will be added to this invoice for each day the loaner is used, regardless of how long it may be used.
